📍 Hyderabad, India

Administrative Staff College of India

PG Diploma in Hospital Management

Relevant courses: Bio-statistics, Marketing management, Strategic management, financial management, Business Research Methods, Operations research, Healthcare IT, Patient care services, Materials and supply chain management, Health Economics.

2010-2014

Bachelor Degree

📍 Hyderabad, India

Jawaharlal Nehru Technological University Hyderabad

Bachelor of Sciences in Biomedical Engineering

Relevant courses: Basic clinical sciences, Biomedical equipment, Biomaterials, Bio transducers and applications, Bioelectricity and electrodes, Biofluids and mechanics, biomedical signal processing, biological control systems, Microprocessors and microcontroller, medical informatics, Rehabilitation engineering, Reliability engineering, Medical imaging techniques, pulse and digital circuits, Analog and digital applications, Applied Biochemistry, Engineering chemistry.

WORK EXPERIENCE

2016-2020

Healthcare Systems Quality Manager

📍 India

Sunshine Hospitals, Continental Hospitals

The role involves upgrading and maintaining quality management and regulatory procedures, standards, and policies for a healthcare organization. Responsibilities include overseeing compliance, providing training and awareness, coordinating audits, drafting and distributing policies, managing tools for monitoring and evaluating quality, compiling data for reports and corrective actions, and ensuring safe use of equipment. The role also involves making strategic decisions based on data analysis, providing guidelines for medication-related processes, compiling key performance indicators, and ensuring compliance with audit and statutory requirements. Additionally, the role involves conducting satisfaction surveys and suggesting measures for improvement.

2016-2020

Senior Executive Quality

📍 India

Results-driven Biomedical Engineer and Compliance Specialist, Overseeing the life cycle of medical equipment, from procurement to maintenance, while maintaining rigorous compliance with applicable regulations. Led a team to successfully implement and maintain compliance initiatives, ensuring adherence to Joint Commission International, Quality Council of India regulations, ISO standards, and industry best practices, resulting in seamless audits and zero compliance breaches. Conducted comprehensive risk assessments on medical devices and implemented mitigation strategies, reducing potential hazards and enhancing patient safety. Conducted regular internal audits to identify non-compliance issues, proactively addressed gaps, and implemented corrective actions to maintain a culture of quality and compliance.

 ACADEMIC EXPERIENCE

- Master thesis work on analyzing regional variations in Swedish maternal and child health care utilization and determining the correlation with differences in mortality and care need index
- Developed proficiency in cost-effectiveness analysis and decision analytic models such as decision tree and Markov models in health economic evaluation through coursework.
- Acquired strong theoretical knowledge in biostatistics, epidemiology, and health economics evaluation tools. Utilized statistical tools like STATA and Excel to conduct analysis.

 AWARDS

In recognition of my extraordinary dedication and commitment towards the organization, I received the Pillar of Support award from Continental Hospital in India in 2017

 INFORMATION TECHNOLOGY SKILLS

Data Analysis

Office Automation

STATA: *Highly Specialized*

SPSS: *Highly Specialized*

MS Office (Excel, Word, PowerPoint): *Highly Specialized*

</> PROGRAMMING LANGUAGES

- **Python:** Intermediate

 ACHIEVEMENTS

- Successfully implemented a new Quality Management System in Continental Hospitals, resulting in a 50% decrease in regulatory non-compliance incidents.
- Led a team of 5 professionals to achieve ISO 9001:2015 and ISO 13485:2016 certification for Continental Hospitals.
- Reduced medication errors by 40% through the implementation of a Medication Reconciliation program.
- Successfully reduced the average length of stay in the hospital by 10% through the implementation of a new discharge planning program.
- Successfully managed the implementation of a new Electronic Medical Record system, resulting in a 25% increase in staff efficiency.
